Hello Robert,

NCTC is opposed to night lights on our trails, NCTC speaks for the ones that have no voice, our animals and small critters .

They enjoy the peace of nighttime quiet and solitude, lights are an invasion of their peace and wellbeing, and space.

NCTC is opposed to any night time hiking with bright lights and noise of human voices.

Human voices interrupted the patterns of life for our wild animals, when I hike during the day I can hear human voices for great distances, and I find that most humans that hike our trails are very noisy.

Thank you

Fred Collins
