Daniel Battagin 5219 19th Ave NE Seattle WA 98105

Subject: Second Informal Notice to Repair Sidewalk - 360 Chorro St., San Luis Obispo

Dear Property Owner:

The sidewalk and driveway apron adjacent to your property located at 360 Chorro in the City of San Luis Obispo has been identified as a dangerous condition and must be mitigated. The City's Streets Maintenance Program has made temporary repairs; however, you as the adjacent property owner are responsible for the permanent repairs in compliance with the City's Engineering Standards.

The City of San Luis Obispo's Municipal Code identifies the improvements between the street line and property line as being the maintenance responsibility of the adjacent property owner.

■ San Luis Obispo Municipal Code 12.16.020 – Property Owner's Responsibility

The maintenance, repair and collection of the cost of repair shall be governed by the procedure set forth in Division 7, Part 3, Chapter 22 of the Streets and Highways Code of the state. (Prior code § 7330.1)

Public Works Department staff sent you the first Informal Notice to Correct on 10/16/2023, with the request to complete the necessary work within 120 days to the satisfaction of the City. After a review of the file and inspection of the property, staff has noted the conditions have not been corrected. You shall obtain an Encroachment Permit no later than 4/1/2025 and complete the repairs within 30 days of this of the permit issuance.

Failure to comply with the above-stated dates will result in the City issuing a formal Notice to Correct and the work being completed by the City's contractor. It should be noted, if the work is complete by a City contractor, the work is subject to prevailing wage requirements.

A hearing has been added to the 5/20/2025 City Council agenda to seek approval for the necessary work and to pursue reimbursement through a special assessment and lien, should the work not be completed by the above stated date.

Please feel free to contact me with any questions at nstephenson@slocity.org.

Sincerely,

Nehimiah Stephenson

Maintenance Superintendent

No 5x

Public Works Department

Highways Code

Areas of less severe damage are completed as the next priority, working around the City in a systematic fashion in advance of the paving program. That can mean the sidewalk will not be replaced for several years. Damage other than that caused by street trees needs to be completed by the property owner.

Related to sidewalk repair is clearance and visibility. When is maintenance required?

- Visibility When parkway strip shrubbery interferes with the ability of a driver to see pedestrians or approaching traffic, either from a driveway or an intersection, trimming of shrubs must be completed by the property owner. Shrubs must be trimmed to a maximum height of 36", for a minimum distance of 30' from an intersection. (Municipal Code 10.60 and 17.16.020)
- Walkway and Gutter Clearance Trimming of ground cover or shrubs is required when the plants extend onto or over the sidewalk, gutter, or street.
- Parkway Strip Condition All tree stumps, large rocks, trash and holes must be removed by the property owner. The parkway strip must be level and holes must be filled and leveled with dirt or other material.

When is a permit required for landscape maintenance work?

If the sidewalk or the street must be closed for the work, a permit is required from Public Works. Call (805)781-7015 for additional information. If a tree is to be removed, a tree removal permit must be obtained. Applications for tree removal are available on the City's web site on the Public Works page www.slocity.org or call 781-7220 for additional information.

Rev 1 14 13

City of San Luis Obispo 25 Prado Road San Luis Obispo, CA 9340

CITY OF SAN LUIS OBISPO

Sidewalk & Parkway Strip Maintenance

Property Owner Responsibilities

Department of Public Works

805-781-7220 805-781-7015 The City receives many requests from citizens to make repairs to sidewalks. This brochure provides general information to the public on this subject.

What is the sidewalk, parkway, and curb and gutter?

The sidewalk, parkway strip, and curb & gutter are typically made of concrete and located next to the street on the front and/or side portion of your property. The curb and gutter are located at the edge of the street pavement. The sidewalk is either separated from the curb by a parkway strip, or is located adjacent to the curb. Parkways are sometimes planted or filled in with brick or other materials.

Who is responsible for maintenance?

The property owner is responsible for properly maintaining this area (see San Luis Obispo Municipal Code Section 12.16.020 and Streets and Highway Code Division 7, Part 3, Chapter 22). This responsibility includes maintenance of damaged or displaced concrete and abatement of weeds or debris. While the City may be liable for injuries to pedestrians that are determined to have resulted from a dangerous condition of a public sidewalk, property owners should be aware that they <u>may also</u> be found liable if it is determined that their negligence caused someone to be harmed.

When should property owners consider doing sidewalk replacement?

Replacement of the sidewalk, curb and gutter concrete should be considered when one or more of the following exists:

- When there is a vertical difference in height between sections of the sidewalk or concrete parkway strip of 3/4" or more.
- If the concrete has broken apart.
- In any instance where the owner has reason to know that the condition presents a danger

to users, or the owner has observed someone trip because of damage to the surface.

In addition to damaged sections of sidewalk, curb and gutter replacement is typically required when sidewalks and driveways are replaced, unless the sidewalk is separated from the curb by a parkway. Patching should be completed when horizontal openings greater than 1/2" exist.

What are the options available for completing the work?

The City recommends construction of curbs, gutters, and sidewalks in City streets be performed by a properly licensed and insured contractor. A permit is required for concrete repair. Call (805)781-7015 for permit requirements.

Are there inspections and standards for concrete repair work?

Yes, all work and materials must be in conformance with the City of San Luis Obispo Engineering Standards for Public Works Construction.

Before placing any concrete, you must have any tree root removal approved, and the saw cut, forms, and base inspected. After approval, a City-approved concrete mix must be used. The surface finish must be a light broom finish with score marks. After the work is completed, you must call for a final inspection.

A permit is required for all concrete work in the public right-of-way. Engineering Standards for construction are available on the City's web site on the Public Works page www.slocity.org. For information on obtaining a permit call (805)781-7015.

Is the property owner responsible for repairs if the concrete damage is caused by a tree?

The City encourages street trees in front of residences. (Municipal Code 12.24.010) The property owner is responsible for the maintenance of the street tree but the City will repair the sidewalk when the concrete has been damaged by a street tree, as funding is available, and timed with the area rotation program. Concrete damaged by trees other than street trees is the responsibility of the property owner. Maintenance, trimming and replacement of street trees and shrubs is governed by Chapter 12.24.110, 12.24.120 and 12.24.150 of the Municipal Code.

What measures should be taken to minimize concrete displacement by tree roots?

Certain species of trees may raise concrete if preventative maintenance is not performed. To reduce the chance of future concrete displacement, trees can be root-pruned. Care must be taken when root pruning to avoid damaging underground utilities or destabilizing or harming the tree. This work must be completed by a licensed arborist. Also, deep-watering the tree, that is, applying a slow trickle of water over a 24-hour period, encourages deeper root growth which reduces the chance of sidewalk damage.

If a problem is reported to the City, how long does it take for a repair?

When a report is made to the City, it is entered in to the work order program. Subject to the availability of resources and personnel, the City will attempt to review the site within a week of entry of the work order. If a temporary repair, such as grinding or ramping the area can be made, the City will generally attempt to complete that work within two weeks. Severe damage caused by a street tree, which cannot be repaired adequately, will be reconstructed as soon as resources and available personnel allow.

October 16, 2023

Daniel Battagin 5219 19th Ave NE Seattle WA 98105 93405

Subject: Notice to Correct Sidewalk & Driveway Apron at 360 Chorro St.

Dear Property Owner,

The sidewalk and driveway apron adjacent to your property at 360 Chorro St. in the City of San Luis Obispo must be repaired. This is the section of sidewalk at 360 Chorro St. is considered a dangerous condition that must be mitigated. The condition of the concrete has deteriorated so severely that a temporary repair effort by Public Works staff would fail in a very short time and make the sidewalk more of a hazard. This sidewalk was brought to our attention by a citizen complaint.

The City of San Luis Obispo's Municipal Code identifies the curb, gutter, and sidewalk adjacent to your property as being the maintenance responsibility of the property owner, in this case, Daniel Battagin

12.16.020 Property owner's responsibility – City Municipal Code
The maintenance, repair, and collection of the cost of repair shall be governed by the procedure set forth in Division 7, Part 3, Chapter 22 of the Streets and Highways Code of the state. (Prior code § 7330.1)

The appropriate sections of the Streets and Highway Code are included as an attachment to this letter. Below are some incremental timeframes to complete the work.

- Within 30 calendar days of this letter, you must acknowledge receipt of this letter.
- Within 60 calendar days of this letter, you must submit to the City the necessary repair plans for the issuance of an encroachment permit.
- Within 90 calendar days of this letter, you must obtain an encroachment permit from the City to complete the necessary repair work.
- Within 120 calendar days of this letter, you must complete the necessary repair work to the satisfaction of the City.

This repair work can be costly; if you prefer to propose alternate timeframes for consideration, please submit those in writing to me within 30 calendar days of this letter. Failure to comply with this request could lead to formal Notices to Correct being issued with accelerated repair timeframes as required by the Streets and Highways Code.

Sincerely,

Aaron Anderson
Acting Streets Maintenance Supervisor
aanderso@slocity.org 805-781-7043

STREETS AND HIGHWAYS CODE - SHC DIVISION 7. THE IMPROVEMENT ACT OF 1911 PART 3. PERFORMING THE WORK CHAPTER 22. Maintenance of Sidewalks ARTICLE 2. Repairs

5610. The owners of lots or portions of lots fronting on any portion of a public street or place when that street or place is improved or if and when the area between the property line of the adjacent property and the street line is maintained as a park or parking strip, shall maintain any sidewalk in such condition that the sidewalk will not endanger persons or property and maintain it in a condition which will not interfere with the public convenience in the use of those works or areas save and except as to those conditions created or maintained in, upon, along, or in connection with such sidewalk by any person other than the owner, under and by virtue of any permit or right granted to him by law or by the city authorities in charge thereof, and such persons shall be under a like duty in relation thereto.

5611. When any portion of the sidewalk is out of repair or pending reconstruction and in condition to endanger persons or property or in condition to interfere with the public convenience in the use of such sidewalk, the superintendent of streets shall notify the owner or person in possession of the property fronting on that portion of such sidewalk so out of repair, to repair the sidewalk.

<u>5612.</u> Notice to repair may be given by delivering a written notice personally to the owner or to the person in possession of the property facing upon the sidewalk so out of repair, or by mailing a postal card, postage prepaid, to the person in possession of such property, or to the owner thereof at his last known address as the same appears on the last equalized assessment rolls of such city or to the name and address of the person owning such property as shown in the records of the office of the clerk.

5613. The postal card shall contain a notice to repair the sidewalk so out of repair, and the superintendent of streets shall, immediately upon the mailing of the notice, cause a copy thereof printed on a card of not less than 8 inches by 10 inches in size, to be posted in a conspicuous place on the property. In lieu of posting a copy of the mailed notice on the property as provided in this section, the superintendent of streets may, not less than seven days nor more than 10 days after the mailing of the first postal card

notice, mail an additional postal card, postage prepaid, marked "Second Notice," to the person to whom the first postal card notice was addressed. The second notice shall otherwise contain the material required by this article but shall not extend the time for commencing repairs specified in Section 5614.

5614. The notice shall particularly specify what work is required to be done, and how it is to be done, and what materials shall be used in the repair and shall further specify that if the repair is not commenced within two weeks after notice is given and diligently and without interruption prosecuted to completion, the superintendent of streets shall make such repair, and the cost of the same shall be a lien on the property.

5614.1. The legislative body may adopt a resolution determining that bonds shall be issued, and assessments collected and enforced pursuant to Part 5 of this division. In such event, the notice to repair shall specify that bonds shall be issued to represent the security of the unpaid assessments, payable over a period of not to exceed six years, and shall further recite a maximum rate of interest to be paid on the indebtedness, which shall not exceed 7 percent a year, payable semiannually.

5615. If the repair is not commenced and prosecuted to completion with due diligence, as required by the notice, the superintendent of streets shall forthwith repair the sidewalk. Upon the written request of the owner of the property facing the sidewalk so out of repair, as ascertained from the last equalized assessment roll of the city, or as shown in the records of the office of the clerk, the superintendent may repair any other portion of the sidewalk fronting on the property that is designated by the owner. The superintendent shall have power to prescribe the form of the written request. The cost of repair work done by request pursuant to this section shall be a part of the cost of repairs for which, pursuant to this chapter, subsequent notices are given, hearings held, and assessment and collection procedures are conducted.

5616. Upon the completion of the repair, the superintendent of streets shall cause notice of the cost of the repair to be given in the manner specified in this article for the giving of notice to repair, which notice shall specify the day, hour and place when the legislative body will hear and pass upon a report by the superintendent of streets of the cost of the repair together with any objections or protests, if any, which may be raised by any property owner liable to be assessed for the cost of such repair and any other interested persons. If bonds are to be issued, the notice shall also contain the information required by Section 5614.1.

<u>5617.</u> Upon the completion of the repair, the superintendent of streets shall prepare and file with the legislative body a report specifying the repairs which have been made, the cost of the repairs, a description of the real property in front of which the repairs have been made and the assessment against each lot or parcel of land proposed to be levied to pay the cost thereof. Any such report may include repairs to any number of parcels of property, whether contiguous to each other or not.

5618. Upon the day and hour fixed for the hearing the legislative body shall hear and pass upon the report of the superintendent of streets, together with any objections or protests which may be raised by any of the property owners liable to be assessed for the work of making such repair and any other interested persons. Thereupon the legislative body may make such revision, correction or modifications in the report as it may deem just, after which, by motion or resolution, the report as submitted, or as revised, corrected or modified, shall be confirmed. The legislative body may adjourn the hearings from time to time. The decisions of the legislative body on all protests and objections which may be made, shall be final and conclusive.

SENDER: COMPLETE THIS SECTION

- Complete items 1, 2, and 3.
- Print your name and address on the reverse so that we can return the card to you.
- Attach this card to the back of the mailpiece, or on the front if space permits.
- 1. Article Addressed to:

Daniel Battagin 5219 19th Ave N.E Seattle, WA, 98105
