4.a PRC SUB-COMMITTEE LEVEL OF SERVICE (LOS) AMENITIES DISCUSSION ON THE BLUEPRINT FOR THE FUTURE (PRC – 60 MIN)

- a. Commission to discuss and brainstorm unconstrained possibilities for indoor facility uses related to current and future programs and services
- b. Identify the types of programs and services that have potential to use alternate locations and review types of facilities required
- c. Discuss with staff for potential opportunities to support a temporary pilot community center and return to future meetings with options for further discussion.

Commissioner Blair started the discussion by suggesting that an interim/pilot project would be a good starting point. Director Avakian provided a report to the Commission with the support of Recreation Manager Devin Hyfield, providing ideas to activate a discussion on alternative facilities. A list of currently available SLO Indoor Recreation Facilities, along with a list of the

types of activities that currently take place in that space was discussed. A suggestion was made to investigate the leasing of empty retail spaces, and perhaps to partner with the County of SLO and local elementary schools for a joint use agreement for some of their facilities when they are not using them.

A multi-generational center is now included on the list for the future CIP. The Commissioners asked questions about which community organizations are requesting additional indoor space. This information will be collected by Staff and presented back to the Commission.

Top three brainstorming ideas for indoor space needs:

- **Teen/Youth Center** – The target age range would be middle school children, activities/programming to be defined, staffing and location brainstorming will be discussed and defined further.
- **Children's Indoor Play Space**
- **Multi-generational center**

4.b RECEIVE DIRECTORS REPORT: (AVAKIAN - 30 MIN)
