RE: Phillips 66 Pipeline Ordinance 1587 – Application Request for Extension

Public Works Director:

Phillips66 Pipeline LLC currently operates pipelines within the city limits of San Luis Obispo, CA under the subject pipeline ordinance. Phillips 66 is planning to divest from operations within this San Luis Obispo region, therefore we are seeking only to extend the Ordinance for a term of 3 additional years, with an option to renew for an additional term.

The existing pipelines are located as shown on the attached maps.

We have also provided a copy of our existing pipeline franchise with the neighboring City of Arroyo Grande as requested for reference.

The California Constitution, under Division 3 within the Public Utilities Code (PUC), Chapter 2, Sections 6201-6302, allows for local governments to grant gas, oil, electric, and water franchises. Complete legislative language can be found on the following website:

https://leginfo.legislature.ca.gov/faces/codes_displayexpandedbranch.xhtml?tocCode=PUC&division=3.&title=&part=&chapter=2.&article=

As in the past, Phillips 66 intends to continue with all safety measures and regulatory practices for the continued safe operations of all our pipelines within the City of San Luis Obispo.

For more information about Phillips 66 Pipeline LLC, and its pipeline safety practices, please visit www.phillips66pipeline.com.

We look forward to working with you on this renewal process.

Sincerely,

A handwritten signature in black ink that reads "Terri J. Barksdale". The signature is written in a cursive, flowing style.
