Welcome

Describe San Luis Obispo in one word.

136

Housing

What actions would you like the City to take to achieve a Housing Major City Goal?

117

(1/2)

1. Pursue a "Missing-Middle" housing program that would allow "house scale" multi-family housing (duplex, triplex) in certain existing neighborhoods that have infrastructure to support additional density.
 5.09
2. Incentivize construction of smaller, more affordable homes through the structure of the City's Development Impact Fee Program.
 4.15
3. Continue to support the Housing Authority and other non-profit partners who build and manage affordable housing in the City.
 3.87
4. Proactively seek new funding sources for affordable housing to help meet the City's production goals.
 3.15

What actions would you like the City to take to achieve a Housing Major City Goal?

1 1 7

(2/2)

5. Identify non-profit partners with the ability to purchase market-rate housing and convert it to affordable housing.
 2.78
6. Update the Margarita Area Specific Plan to include more housing options of all types (affordable, multi-family, mixed-use) on undeveloped land.
 2.41
7. Update the Airport Area Specific Plan to allow mixed-use residential development where appropriate and consistent with the County Airport Land Use Plan.
 2.27
8. Update the General Plan where necessary to facility City housing production objectives.
 2.21

Housing Other Ideas

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

0 4 2

(1/11)

- Develop affordable housing accessible to our poor.
- High density housing is a good way to increase housing choices, but it's important to ensure open space in the middle of it all. In addition, parking or incentive to ride bikes/ped access must be part of the equation.
- Expand the long term housing and population targets as part of a general plan update. Track and target metrics for improving our jobs/housing imbalance.
- Build more 4-6 unit multi-family dwellings. Not all multi-family dwellings need to be at such a high unit count.
- Keep the local preference on new development projects which prioritizes that homes will be made available to locals first.
- We need more housing downtown - all types, not just small units.
- down payment assistance programs for first time buyers in SLO

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(2/11)

0 4 2

- Medium/high density apartment/condo/townhome communities that are bike and pedestrian centered
 - Eliminate minimum parking requirements
 - City needs a mix of housing types
 - Support more housing of all types
 - Support non profit development of a down payment assistance program to help local workforce become home buyers
 - Reduce fees and improve permitting processing times
- so more homes can be develop. Tiny homes only address a small population. Working families need more housing.
- Reduce parking minimums. Focus on tier 1 ATP build out to get more people walking and bike without the need for a car.
 - You cannot build housing with no parking without providing access to groceries, etc. Therefore, put a grocery store downtown, return a daily trolley,

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(3/11)

0 4 2

- and make sure there are lots of trees in developments. The Madonna development is a nightmare. Do not repeat anything like this.
- We need more housing if all types. When considering smaller apartment sizes, please make sure they are market driven. For example, San Luis Ranch smaller homes sales are under sold. Nextdoor and Facebook comments are claiming they are too small.
 - Adopt clear and objective standards for housing developments allowing for purely administrative review.
 - Charge lots with more than one dwelling fees for both homes. Use those fees to support low fee affordable housing.
 - Create a land acquisition program to sell/donate land to affordable housing projects.
 - without more housing built and without access to affordable housing, we need rent control

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(4/11)

0 4 2

- Code enforcement needs to be more responsive to neighborhood wellness complaints such as tall weeds, unkept yards etc.
- Have childcare that is affordable and all residents are able to use.
- Please Prioritize the production of modestly sized attached homes such as duplexes, triplexes, townhomes.
- We need to secure high density space for housing in the city. As an example, a high number of housing units could be built on the caltrans work areas on both sides of Madonna road. Those facilities could be relocated to space that serves their needs. It may even be compatible with space near the airport.
- Stop thinking that you can build your way out of expensive real estate. Also- take over the hotels and use them for housing.
- We must designate corridors for housing in structures

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(5/11)

0 4 2

- that are 6-8 stories high along major arteries such as south Higuera, south broad street, and upper Monterey st. Coupled with this density housing must be reliable, frequent public transportation including nights and weekends. I would favor this even if it means reducing transit service to low demand neighborhoods.
- Support the Waterman Project on the city owned adobe site on Dana Street
 - Don't build the new \$52 million luxury police station, use some of the funds to remodel the current police station, and use the rest on other measure G goals like affordable housing.
 - Incentive property owners who build an ADU and keep the rent affordable
 - Stop trying to solve a problem that isn't there. Housing should be a free market in a free democratic

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(6/11)

0 4 2

- nation. No more affordable housing initiatives! People need to sacrifice and save if they want to live here!
- Instead of spending \$50 million on a police station, we should give the police department 10 million for infrastructure and spend the rest of the homeless and the mentally ill
- Create a public housing program that would develop city sponsored, high density residences at far below market rates
- Homeless people need a place for their belongings. We could provide chain link lockers at locations associated with large parking lots. They would be inside pergolas (like the solar pergolas at the high school). If the person wanted to pitch a tend under their pergola, pull in their car, etc. that

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(7/11)

0 4 2

- would be a safe and supervised place for them. Services could be provided at the sites, and monitors could be recruited from the homeless population to report problems to authorities. Ultimately, the pergolas could be used as charging stations for city or private vehicles when we have solved the homeless problem.
- Consider the overlap of child care and homelessness. This can include child care assistance to those trying to get out of homelessness, those at risk of homeless, and those with school age children.
 - Force cal poly to build more housing and require students to live on campus for two years.
 - Co-housing for downtown and near cal poly
 - Prohibit developers from gauging rent. \$2500 for a studio or 1-bedroom is criminal. Sure, cal poly parents can afford it. But your workforce can't.

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(8/11)

0 4 2

The people who fix your cars. Who serve you food. The people who you pass by every day on your way to work downtown.

- Consider child care infrastructure and zoning when considering new housing development
- Reduce barriers to multistory mid-density residential development near transit hubs
- Start a real “workforce housing” program for those of us who are too poor to

afford a market-rate rental, but make too much money to qualify for affordable housing programs.

- Hi
- Lessen documentation requirements to enable undocumented immigrants to access quality, affordable housing.
- Stop relaxing planning regulations in single family zones. We invested in our homes with the expectation of low density,

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here

(9/11)

0 4 2

- garage parking etc and now setbacks, off street parking, lot coverage limitations etc are all being eliminated or reduced.
- I am concerned that parking is not given sufficient consideration as dense housing is taking over many neighborhoods like Little Italy. I think it's unrealistic to think households will reduce car ownership and parking vehicles is becoming a problem - in the new Righetti neighborhoods , etc
- rent control
- rent control
- Rent control
- rent control
- rent control
- Establish a Down Payment Assistance Program for Workforce income levels and under. Seek grant funding at the state and federal level as well as seek local corporate

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here
(10/11)

042

sponsorship and donor contributions to fund such a fund. The City/County of SB has this as does the City of Lompoc...just needs to be copied and duplicated!

- rent control
- RENT CONTROL
- Enable buildings like the Anderson Hotel to be built anywhere in the city. Allow denser housing

in Laguna Lake and around Cal Poly so they can support their own commercial areas.

- Update the general plan!
- RENT CONTROL
- Eliminate all minimum parking requirements for residential and commercial uses. Let developers decide the number of parking spaces that would be appropriate for their projects. Housing over vehicle storage!
- Small homes for homeless population rehabilitation in

If you would like to share a new idea on how the City of San Luis Obispo should address housing, please share it here
(11/11)

0 4 2

- partnership with community or non profit services
- Launch a down payment assistance program

Homelessness

What actions would you like the City to take to achieve a Homelessness Major City Goal?

1 2 8

(1/2)

1. Identify and support the development of a range of housing opportunities for homeless residents to facilitate the transition to permanent housing.
 4.27
2. Continue Mobile Crisis Unit services to meet community needs.
 3.93
3. Support the County's plan to reduce homelessness by 50% over the next 5 years.
 3.51
4. Advocate for increased assistance and resources from the County and other agencies to prevent and address homelessness.
 3.22

What actions would you like the City to take to achieve a Homelessness Major City Goal?

1 2 8

(2/2)

5. Continue/expand partnership with CAPSLO for 40 Prado and services to address homelessness.
 3.15
6. Continue to implement the Community Action Team pilot program to provide outreach and service referrals.
 3.08
7. Provide grant support to organizations providing homeless prevention/housing programs.
 2.96
8. Implement the City's Homelessness Strategic Plan in coordination with the County and regional partners.
 2.24

Homelessness Other Ideas

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

036

(1/10)

- I know the problem is actually taking the first step to ask for help without judgement. addressing shame and guilt of needing help. Counseling and support system the tools to maintain my self sufficiency. I was the hopeless and the ex criminal and I took accountably for my mistakes and never looked back. I made it!
- Is there a Safe Parking lot for people who need a home?
- Look into programs that incentivize downtown businesses and residences to install security cameras to deter crime. Similar program in Washington DC.
- We need the County to step up - they have the social services dollars.
- rehab of areas that are degraded (creeks and open spaces full of trash)
- Potentially some social practice arts projects that could be really impactful

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(2/10)

036

- Take some of the 52 million designated for the new police building and put it toward solving homelessness
- Consider designating an area of the city for use as a tent city for homelessness if other options like shelters or affordable housing programs aren't immediately available to all in need. Service the area with porta potties, showers, and police patrols for community security.
- Protect the general public from antisocial mentally ill aggressive transients. Expand supportive housing options
- No more hostile architecture!
- We should be concerned with the shelter especially in the winter. The homeless don't utilize them because they don't want to be forced to stay there. We need to provide other resources to them.
- Stop showering the homeless with money. It's not working! The numbers are going UP,

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(3/10)

036

not down. Their bad behavior is increasing. Are they a protected class now?

- Adopt reduced residential building code to permit transitional housing sites.
- Upzone all R-1 properties to at least R-2. R-1 zoning is only appropriate in county land.
- Get the county on board to facilitate access to detox and crisis center and streamline homeless

services through county facilities as well as city (for which we need to provide shelter)

- Realize that many people are “invisible homeless”, living in motels while working full time because developers are still able to charge \$2000+ for a studio or one-bedroom apartment and have the audacity to ask for a \$6000 income to qualify for a lease.
- Harm reduction programs/services (e.g

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(4/10)

036

- Safe consumption site/needle exchange; workforce development programs) that specifically target homeless, transitional-aged youth/ young adults living in around downtown/ parks and creeks.
- Care court. many people on the street are suffering from mental illness and drug addiction. They can't get better until they have a roof over their heads. House them. Provide social support. Employ them. See them as people instead of just blight.
- We need more MCU members, and i'm not talking Iron Man. It costs more money and time to send armed police officers to mental health calls. The research back this up! We want more MCU members
- Stop having the police interact unnecessarily removing people from where they are

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(5/10)

036

at when there is obviously no where else for them to be.

- Don't just reduce homelessness. Meet people where they are: provide support, food, clothing, tents, etc. get rid of inhumane infrastructure, bars on benches, things done, purposely to make homelessness harder.
- Expand the homeless shelter. House people. It's cheaper than doing "cleanups".
- We fall into difficulty when we don't

follow our own rules. People have been permitted to stay out at Oklahoma avenue for a year when 90 days was the max. If CAPSLO were BT follow the rules they need to resign. Now we have another mess. Sunny acres part 2.

- Integrate with senior housing e.g. Smart Share and other org.s for services and "housing" (or the more generalized label John Klevins would like). And spend some money on it!

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(6/10)

036

- Mandatory detox for people that struggles with drug abuse in public settings like parks and downtown and pose a risk for themselves and others.
- Stop devoting so many resources to people who only hurt our community. I want the social safety net for people in the edge but there comes a point at which our community suffers a huge opportunity cost when we try to help people that don't want help.
- Explore the Downtown Streets Team.
<https://www.streetsteam.org/>
- Clean creeks and other open spaces that are impacted by trash.
- Remove outlets at Santa Rosa park in the rink. It attracts individuals who are homeless.
- Homeless may have a right to be somewhere in public, but they don't have the right to camp, threaten, disturb, etc. please enforce existing laws.
- I have a concern for my

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(7/10)

036

- safety and the safety of my children as we daily commute via our bikes on BJT.
- Create a centralized location where people can obtain resources they need, or assistance in obtaining resources, such as but not limited to food, shelter, security, counseling, etc.
- Monitor streets and trash issues related to homeless population.
- Change city law to prevent RV's from moving 5' to game the system.
- Bridge St is now dangerous and same people are there for weeks
- Some of the homeless may need forced care. We never see the people that are truly trying to better themselves. We only see tge scary crazy drugged out screamers. It would b good to be able to help these people that obviously need mental health and drug intervention
- Provide more funds for BUILDING government

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(8/10)

036

- sponsored affordable and low income housing
- Create a public housing program to develop city sponsored developments at far below market rate. Homeless prevention is 3x cheaper than homeless management
- More police enforcement in open space and creek areas. Don't let them just move from one location to the next. Our creeks look disgusting and are incredibly damaged.
- Most of SLO's restaurants seem to be looking for employees. I wish SLO had a program similar to DC Central Kitchen's "Culinary Job Training" program to help our homeless population get trained and working in our service industry: <https://dccentralkitchen.org/enroll/>
- Petition the state to require a homeless shelter in every city, with funding support of course.
- Both homeless and non-homeless are on

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(9/10)

036

the streets, trails, and sidewalks and have no place to go to the bathroom. This creates a health issue of feces and urine on bushes, along the railroad, parks, etc. We had a Portaloo in front of our home due to some construction and we realized that mail carriers, delivery people, truck drivers, joggers, parents with children ALL would come use that little

bathroom. Every Tuesday the company cleaned it out. We don't need brick and mortar bathrooms, we need many more public portapotties.

- Our community needs permanent supportive housing. It's been proven effective for many years in other states and communities. Unhoused persons need homes where wrap-around services can be accessed.
- Day work bus offers anyone a day's work.

If you would like to share a new idea on how the City of San Luis Obispo should address homelessness, please share it here

(10/10)

036

- Police need to be more proactive when encampments are plainly visible (for example on Chorro and walnut) in plain sight to dozens of officers. Response appears to be only to complaints. Needs to be proactive.
- No more free bathrooms on the sidewalk, hand washing stations, showers at the library, etc. Stop being inviting them to come and stay. Start enforcing vagrancy laws and issue citations. If you're going to give away anything, how about one-way bus tickets for a minimum 250 mile distance? Don't reinvent the wheel; we only need to follow the path other successful and clean cities have done: Coronado, Rancho Santa Fe, Carmel-by-the-Sea, Napa, etc.
- Encourage you to reach out to Ventura city councilman Jim Duran of the success he's seen.

Climate Action/Open Space

What actions would you like the City to take to achieve a Climate Change/Open Spaces Major City Goal?

1 2 8

(1/2)

1. Provide affordable and accessible sustainable transportation options (e.g., public transit, bike/pedestrian infrastructure, electric vehicle chargers, electric car and bike share programs, etc.).
 3.74
2. Protect new open spaces in the San Luis Obispo Greenbelt and manage open spaces for natural resources protection, equitable and user-friendly access, resilience to climate change, and carbon sequestration.
 3.53
3. Support the City goal to plant and maintain 10,000 new trees by 2035 (the "10 Tall" initiative).
 2.67

What actions would you like the City to take to achieve a Climate Change/Open Spaces Major City Goal?

1 2 8

(2/2)

4. Provide access to resources for residents that make it easy and affordable to have a green and healthy home (e.g., rooftop solar, energy efficiency, replacing fossil fuel appliances, secure federal and state incentives, and rebates, etc.)
 2.49
5. Implement sustainability focused programs from the Climate Adaptation and Safety Element of the General Plan (e.g., manage creeks and open spaces to reduce wildfire and flooding risk, support access to clean and affordable air conditioning, etc.)
 2.16
6. Reduce greenhouse gas emissions from City operations (e.g., replace the City's gas vehicles with e-bikes or electric vehicles, remove fossil fuel appliances from City owned buildings and facilities, etc.)
 2.15

Climate/Open Space Other Ideas

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(1/12)

- Free transit!
- More housing near jobs will reduce VMT. This should be a priority
- Combine services with RTA to increase bus frequency and reduce vehicle miles traveled for commuting workers
- Utilize La Loma Adobe as an entryway to the Reservoir Canyon trail head
- Increase transit frequency
- I support maintaining our

current open space properties and being a good civic neighbor to adjoining private property owners. Staff has been very responsive within their capabilities and available time, but are very much understaffed. Which makes me not supportive of acquiring additional open space, since we can't fully manage the space we have. That budget money should be used for current

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(2/12)

- open space management and improvement. Also, in that line, I support the maintenance dredging of Laguna Lake and the erosion prevention and reversal of the creek bed and surroundings up stream from the lake. It's great that the city has finally started to address that need and continue it as property maintenance. I would support more.
- Preserve historic city owned properties should be a major goal of the plan including the la loma adobe
 - procure more sopen space and allow access for multi use. There is an ever increasing need for open space to recreate and enjoy
 - Put water fountains in at key trailheads so hikers can refill their bottles.
 - Preserve and rehabilitate a city owned property, the La Loma adobe

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

- Support ending reliance on fossil fuels.
- Please add a pump track to Emerson park or a downtown park
- there is something wonky with your program each time after I edited the response it would change my vote. weird!
- Increase open spaces. Develop trails.
- Build more housing in already-developed areas near downtown rather than encouraging suburban sprawl!
- Please continue to expand and acquire more open space
- Bring back more beavers into our areas into our creeks etc so that they can help create aquifers for us to utilize during drought season stay away from dam building we don't need to build any more dams we need to start the drought has overused or

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

- aquifers which have left open spaces which we need to refill those Open spaces in the ground versus building new dams I'm sorry I don't remember what it's called it but we need to better understand our hydrogeology in this area we need to protect our wetlands
- Support City Farm SLO educational programs Implement the City Farm SLO creek restoration and security projects.
- Incentives for businesses to install charging stations
- Bike share program including ebikes
- More support for our ranger service and everything they do
- Consider using La Loma Adobe site for Ranger housing and programs about local flora and fauna and use some

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(5/12)

- rooms inside adobe to share info about indigenous people, Spanish, Mexican settlers and how they adapted to climate conditions.
- Each year, evaluate the damage done by bikes on the mountains and do something about it.
- Develop a pump track.
- Public market in Ross/Beverlys with food, arts/crafts, vendors, like SF ferry building or LA grand central market
- Grants/assistance/rebates to help older neighborhoods afford important climate change focused updates like lawn removal, solar, building electrification, etc.
- Develop the La Loma Adobe site as the trailhead for Reservoir Canyon Open Space.
- More pop up or small local businesses in vacant properties downtown.
- Support City Farm SLOs proposal

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(6/12)

- for public safety, access, and infrastructure. City Farm SLO models regenerative agriculture, spreading climate smart farming practices as a way to mitigate climate change, as recognized in the City of SLOs Climate Action Plan.
- Support city farm slo proposal for support
 - Incentivize residential energy efficiency for the existing housing stock. preserve
 - open space by placing a moratorium on future annexations.
 - More funding for open space fuel reduction efforts.
 - More open space acquisition!
 - Support SLO City Farm's plan for infrastructure
 - Stop building more parking garages!!! Build a facility for secure bike storage...encourage biking, walking, mass transit.
 - Support efforts to improve the

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(7/12)

structural condition, historic integrity, and appropriate cultural interpretation of the four City-owned adobes in light of the City's Diversity, Equity and Inclusion goals. In particular, support efforts to stabilize, restore

- Consider closing Higuera St to through traffic during peak times. Make it a pedestrian/cycling space during the

day, much like Farmer's Market. In evenings, delivery traffic can resume. Studies show pedestrian traffic puts more people on the streets and may actually help local businesses. Use the space to put chairs and tables out for community use, and install barriers that can be raised/lowered to enforce traffic restrictions.

- I would support higher budgets for open space maintenance,

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(8/12)

eliminating trail cuts, ticketing for ignoring trail closures etc.

- Remove parking availability to discourage single occupant travel, replace street parking with drop off zones and car share options.

Storage of personal vehicles in the right-of-way should be prohibited. Give the streets back to the people not vehicles.

- Provide resources to preserve, enhance and stabilize cultural and

historical features such as adobes within the city.

- Develop a pump track for kids to use. Possible location Laguna Lake Park.
- More bike/walk infrastructure
- Tree committee approves tree removal too quickly. We need trees. More thought and consideration needs to be put into maintaining the trees in our city.
- The current flooding event has

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(9/12)

highlighted the importance of ensuring Laguna Lake dredging plan continues as approved.

- Is there any way to add a public transit bus line either to Morro Bay or to Pismo beach? A lot of students want easy access to the beach without having to drive. Ideally, service wouldn't require a transfer through downtown SLO, but I can easily imagine other residents wanting similar service.
- Continue Great work

being done for laguna lake. Improve creek in golf course.

- The Juan Bautista de Anza National Historic Trail runs right through our area. The 250th Anniversary is fast approaching. Can we plan an awareness event? I am president of the Anza Trail Foundation and would love to meet with you! (Lindy Hatcher LHatcher@hbacc.org)
- Code enforcement not responsive to

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(10/12)

- community wellness complaints - weeds
- Eliminate minimum parking requirements.
- Allow seniors 70 + to use e bikes on trails. Very little damage. E bikes allowed at MDO.
- This was covered among the ideas in Climate Action already, but I really want to put extra focus on bicycle infrastructure throughout the city. Adding bicycle lanes that are colored to be visibly separate from the street and from pedestrian areas and ideally also be physically separate would go a long way to easing commutes for students and workers in the city. The safer a bicyclist feels in a bicycle lane, the more likely

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

040

(11/12)

they are to use it. Furthermore, the design of the bicycle lanes should be considered: many entrances/exits, a smooth surface (without sidewalk cracks), and smooth on/off ramps that don't involve going over curbs. Ease of use plays a role. Thanks for your consideration!

- Fix the bike path at Cerro San Luis Trailhead
- Tree committee should evaluate removal requests

strictly according to the municipal code. Replacement trees should be monitored to ensure they are installed and maintained.

- Get people out of cars onto bikes and public transit
- Need open space. Monitor and maintain trails.
- Increase open space. Stop building new homes.
- a top priority should be aquisition of more open space
- Please continue to acquire

If you would like to share a new idea on how the City of San Luis Obispo should address climate change and the City's open space, please share it here

0 4 0

(12/12)

open space and implement
recreational trails for public use

- Improve quality of existing assets
such as Laguna Lake and park.
- i think climate and open space
should be separate subjects

Economic Development and Downtown Vitality

What actions would you like the City to take to achieve an Economic Development/Downtown Vitality Major City Goal?

1 1 1

(1/3)

1. Continue Downtown activations in Mission Plaza as well as expand to other areas of the City.
 5.18
2. Continue support of Downtown Clean and Safe programs (e.g. Downtown SLO Ambassador, Police bike officers, etc.).
 5.16
3. Continue Shop Local initiatives (marketing and promotion of local businesses).
 4.54
4. Continue Buy Local and Eat Local bonus programs.
 4.50

What actions would you like the City to take to achieve an Economic Development/Downtown Vitality Major City Goal?

1 1 1

(2/3)

5. Continue grant program for childcare business startups and expansion of existing businesses.
 4.12
6. Continue to work with regional partners like REACH, SLO Chamber, Downtown SLO and Cal Poly.
 4.05
7. Work with residents, property owners and business owners to create a vision and plan for underutilized properties in the Upper Monterey Area.
 3.96
8. Continue support of Downtown holiday lighting and activations.
 3.60

What actions would you like the City to take to achieve an Economic Development/Downtown Vitality Major City Goal?

1 1 1

(3/3)

9. Expand outreach and promotion efforts to current and potential new businesses.

3.06

10. Implement major initiatives from the updated Economic Development Strategic Plan.

3.00

Economic Development Other Ideas

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

030

(1/8)

- Pilot closing off Monterey and Higuera streets to cars on weekends to test if pedestrian/bike only streets attract more business to smaller shops.
- Turn higuera street between broad and morro into a pedestrian plaza similar to pearl street in Boulder. Really engage the street and make it a place for pedestrians NOT cars
- Prioritize the arts!
- Cultural arts center district should be a high priority
- Trickle up economics, give money to the poor so they spend money at the businesses
- Offer minimal or no incentives or grants to attract chain businesses. Make the city attractive enough so businesses WANT to locate here.
- More incubator programs for Cal Poly, so graduating students would start businesses here

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

030

(2/8)

- Invest in the arts.
 - Accelerate the daytime closure of the DT core of Higuera and Monterey for pedestrians and bikes. Remove parking and make more kid and family friendly.
 - Seconding the idea of development near the Amtrak station
 - Make downtown family friendly. Homeless doing drugs and/or in psychotic state should be remove from the
- Mission Plaza, the downtown creek and nearby sidewalks. The current situation is unsafe for families.
- Encourage development near the Amtrak station
 - Art after dark after party
 - Clean streets downtown on a regular basis.
 - Add to the active transportation plan a separate chapter

030

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

(3/8)

titled "downtown pedestrian plan" which would address the following: location of more mid-block crosswalks, traffic calming devices, sidewalk widening, concerns for pedestrian safety, night lighting, traffic related noise, where to increase crossing times for pedestrians, where to locate pedestrian refuge islands, eliminating gaps in the. Pedestrian

network, location of more bulb outs, beautification of the pedestrian experience thru hanging flower pots, etc

- Expedite the new parking garage(s) with consideration of the very high usage of the existing handicapped spaces in the downtown area, making downtown more attractive to the seniors in our community.

030

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

(4/8)

Implement more 'loading' spaces for short term access to downtown businesses. Create an app that identifies open street parking spaces and handicapped spaces to prevent driving around trying to find one.

- I am in huge fan of a vacancy tax for any home or commercial space that is not rented.
- Encourage housing downtown (flexible density)
- Have you been downtown lately??

It's like a zombie apocalypse. There are sketchy people everywhere.

Shoppers and families and eventually businesses will all leave downtown cus the people there are scary. Downtown's lack of vitality is closely linked to our tolerance of homeless drug addicts.

- Scrap the plans for a new parking structure. Build housing for

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

030

(5/8)

the people in our community who are struggling to stay housed.

- Don't keep allowing developers to keep storefronts vacant. Charge them a hefty fee, use it to build housing
- Encourage and promote popups
- Revive program to send postcards to houses near downtown of bike/walk/bus options
- Walkability should be the guiding principle in all decisions
- Incentivize small, local businesses in downtown whilst focusing chain stores to the outskirts.
- More pop up or small local businesses in vacant properties downtown.
- Public market in Ross/Beverlys with food, arts/crafts, vendors, like SF ferry building or LA grand central market
- Increase money for open space development.
- Keep providing affordable child

030

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

(6/8)

- care at schools.
- Vibrant arts investments
- Getting the homeless out of downtown would make it a lot more attractive to tourists and residents alike.
- Eliminate parking on higuera and widen sidewalks. Get people out of their cars and spending time in a nice walking environment. Way more revenue potential than parking meter revenue! Look at state street in Santa Barbara.
- Grocery store downtown please, subsidize their rent if necessary.
- Continue growth and support of the arts in downtown, including the Cultural Arts District
- There are so many large empty shops downtown. It would be great to have an Amazon locker store to ship pkgs to. It would also help with the porch pirate problem in town
- Arts support - local small nonprofits. Not just the

030

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

(7/8)

- major organizations that usually get all the funding.
- Prioritize arts and culture as a mcg
- Support community infrastructure in arts organizations, sports and recreation, services for seniors and children
- I think increasing opportunities for arts and cultural activities are important for local economic development in general
- Support arts activities, creation of cultural arts district
- Arts and cultural opportunities are critical for downtown vitality and economic development
- I don't know what the restaurant owners. Red to ensure their viability — but there's no question in my mind that a more vibrant arts and culture scene would help the restaurant which in turn would help draw tourists AND residents

030

If you would like to share a new idea on how the City of San Luis Obispo should address Economic Development and Downtown Vitality, please share it here

(8/8)

to downtown. And then maybe more and better retailers can survive. The bars are going to be just fine thanks to students. But restaurants and others need help to draw people downtown. More arts and culture please!

- Continue to partner and prioritize arts and culture as part of our economic health
- Continue with the implementation of CWA's that are

inclusive, equitable, diverse, and provide local jobs for local residents. They ensure the use of local accredited apprenticeship programs and provide a career pathway.

Infrastructure and Multi-Model Transportation

What actions would you like the City to take to achieve a Infrastructure/Multimodal transportation City Goal?

1 2 2

(1/3)

1. Implement the Active Transportation Plan Tier 1 (Bike/Pedestrian) Network.
 6.10
2. Implement Parks & Recreation projects for new and improved parks and park amenities.
 4.93
3. Complete infrastructure improvements for individuals with mobility issues (curb ramps, sidewalk repairs, etc.).
 4.25
4. Continue work towards building the Prado Road Overpass and Prado Creek Bridge Replacement.
 3.75

What actions would you like the City to take to achieve a Infrastructure/Multimodal transportation City Goal?

1 2 2

(2/3)

5. Continue work on flood control infrastructure improvements to creeks and storm drainage systems.
 3.72
6. Continue projects that replace and improve water and wastewater infrastructure.
 3.44
7. Continue to implement Street Reconstruction and Resurfacing projects.
 2.58
8. Begin construction of the Mission Plaza Restroom Replacement and Kiosk Café.
 2.57

What actions would you like the City to take to achieve a Infrastructure/Multimodal transportation City Goal?

(3/3)

1 2 2

9. Begin construction of the Cultural Arts District Parking Structure.

2.25

10. Begin construction of the California/Taft Roundabout.

1.44

Infrastructure Other Ideas

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(1/10)

037

- Plan bike infrastructure so that faster bikes can travel safely along with or separate from slower pedal bikes
 - Develop a plan to build city conduits (to be leased to providers) in underground utility area to open these places to new technologies.
 - Implement a bike share program
 - Reallocate funds away from new police station and parking.
- Prioritize dense housing and public transportation infrastructure (and bikes)
- I'm all for a new police station but I am not in support of 52 million being spent. If they didn't buy all the militarized equipment the dept. could have saved more money for future building. I'd rather see more police getting to know the people of their community, out on

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(2/10)

037

- the streets for example. Police need community support as well because you have one heck of a job to do! I just feel policing needs to change up in how to interact with community. I am concerned for their safety as well as those they come in contact with.
- Mass transportation Needs to be more available. Some cities have instituted free bus service. Could that be done here?
 - Don't feel safe as pedestrian
 - due to cars not yielding to pedestrians. Need more police enforcement and police presence.
 - Pedestrian/cyclist infrastructure to connect from the Aero/Broad intersection to the businesses south of there
 - Eliminate minimum parking requirements
 - Repurpose on street parking with protected bike lanes, wider sidewalks, and parklets
 - Make Higuera pedestrian-only.

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(3/10)

037

- Ada bathrooms deployed for weekly farmers market
- Create incentives for people to use bicycles rather than cars.
- Pedestrian crossing @ Marsh and Beach street. Please.
- No more parking structures. Build housing.
- Create more parks. There is no where for children to play in the neighborhoods off margarita
- Consider building bicycle storage infrastructure in downtown.
- Please repair bike path that connects from Cerro San Luis trailhead parking lot to Madonna bike path.
- Love the bike cross walk light at BJT and LOVR. Please install more of these features around town.
- Address areas of city that don't have parks, like margarita planning area. Areas of s. Higuera.
- Fund the broad street traffic project

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(4/10)

037

- Improve intersection safety at key spots - the South Street, So. Higuera, Madonna is dangerous and difficult to navigate on a bike and as a pedestrian.
- Subsidize public transport options like the bus system. Give free bus passes to more people, especially, teens, SLO workers, etc. Add more bus routes and busses to each route.
- Bike corals downtown, carshare ordinance city
- wide. Establish rules for e-scooter and e-bik share programs before it's too late and they litter our town.
- Please remove uneven asphalt and install a splash pad at Emerson Park
- Improve bike lanes on tank farm road.
- Continue the great work for bikes and pedestrian safety.
- Please implement downtown concept plan with a round

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(5/10)

037

about at the Marsh and Higuera intersection

- More bike lanes esp in s higuera area. Also more safe crosswalks with flashing lights
- Buy smaller buses and run them more frequently
- Please improve bike lane safety on South Higuera.
- Increase the bus frequency and extend the hours it runs. As a student at Cal Poly, it's frustrating

having to wait for a bus or not able to go later at night when it isn't running.

- Improve South Higuera bike lanes... need curbing between bikes and cars...it's so dangerous, people pull out in cars and don't even look. Can do both directions on southbound side to save money but with all the new housing on south side and Public Market people are going to get killed on bikes down there

037

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(6/10)

- Fund the Broad Street traffic project. Disallow parking on Broad Street. Sight is virtually impossible.
- Continue laguna lake restoration and maintenance
- Class 4 bike lanes but also other ways to reduce car use. More frequent buses. Safe bus infrastructure with real time notifications. Car share service.
- Fund the broad street traffic improvements project. Also please consider adding traffic calming to stoneridge drive
- Fund the Broad Street traffic project
- we need bike share in SLO. last year living on campus without a bike i did not even feel like a member of the SLO community. With inadequate access to safe bike lanes,

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(7/10)

037

and the small amount of busses available, it's hard to get around. We need to pay bud drivers more to entice more people to become drivers, and then increase the number of routes.

- Please time the lights eastbound on Chorro from palm to marsh so that cars don't stack at every single light getting through downtown.
- more small and flexible buses for local residents.

consider special buses on Thursday for famers market.

- Curb ramps are desperately needed along Augusta in the Sinsheimer neighborhood. Many senior care facilities and an elementary school are located along that street which is the main thoroughfare for the entire neighborhood, and the lack of curb ramps mean that children

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(8/10)

037

- on bikes, parents pushing strollers, and caretakers pushing wheelchairs are forced to go into the roadway (which is also the bike lane.) It's extremely unsafe to have so much foot traffic diverted into the street where both cars and cyclists are.
- More accessible sidewalks in downtown SLO
 - Santa Rosa Park's hockey rink needs revamping -- it needs outdoor tiles, upper netting to catch hockey pucks, and updated boards.
 - Fund updates to sewer infrastructure so people can add more homes in neighborhoods currently under "constrained capacity." Direct all parking in-lieu fees to the bus system.
 - Santa Rosa Park's outdoor hockey rink is in an ideal location, but needs to

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(9/10)

037

be repaired and revamped. The local hockey community needs the resources to provide the younger generation with the ability to play high quality hockey, so that they can be passionate about something just like many of us have been.

- City Farm SLO's Proposal for Public Safety, Access and Purpose-Critical Infrastructure Support
- Start implementing

Neighborhood Traffic Management program that's be unfunded. Focus on resident needs rather than business needs.

- please pay bud drivers more, we need more routes with more drivers per route!!
- Proposal for Public Safety, Access and Purpose-Critical Infrastructure Support
- Laguna Lake maintenance and restoration.

If you would like to share a new idea on how the City of San Luis Obispo should address Infrastructure and Multi-Modal Transportation, please share it here
(10/10)

037

- Rapid implementation of road diets, quick builds, protected bike lanes.
 - Continue with the implementation of CWA's that are inclusive, equitable, diverse, and provide local jobs for local residents. They ensure the use of local accredited apprenticeship programs and provide a career pathway.
 - City Farm SLO's Proposal for Public
- Safety, Access and Purpose-Critical Infrastructure Support

Diversity, Equity, and Inclusion

What actions would you like the City to take to achieve a Diversity, Equity, and Inclusion Major City Goal?

097

(1/2)

1. Continue grant programs that support arts and culture in the community.
 4.72
2. Continue efforts to support and attract minority-owned and serving businesses.
 3.80
3. Support efforts to increase diverse public participation and engagement.
 3.58
4. Continue efforts towards community-based policing and restorative practices.
 3.34

What actions would you like the City to take to achieve a Diversity, Equity, and Inclusion Major City Goal?

(2/2)

097

5. Develop and implement a Diversity, Equity, and Inclusion Strategic Plan.
 3.13
6. Continue to host community outreach and education events (e.g. speaker series).
 2.90
7. Continue to support the DEI High Impact Grant Program for local non-profit organizations.
 2.50
8. Develop a Feasibility Study for a Multicultural Center.
 1.88

DEI Other Ideas

If you would like to share a new idea on how the City of San Luis Obispo should address Diversity, Equity, and Inclusion, please share it here

0 1 8

(1/6)

- Create and develop programs that support the mental health of youth and families.
- Get some more diversity in this room FR
- The City could do more outreach in Spanish. Radio works well to reach the Spanish speaking population. The language spoken in the home drives important conversations and can give people a

voice in democracy. People who live here are entitled to share their opinion in their voice. Additionally, having more home options (tiny homes, manufactured homes) allows for more people to have a home here. We are at a turning point where we should take an interest

018

If you would like to share a new idea on how the City of San Luis Obispo should address Diversity, Equity, and Inclusion, please share it here (2/6)

in discussing what having a home here looks like. Affordable housing requires a change in conversation (affordable materials, houses per lots, ordinances changes to support affordable housing...). We should be encouraging people to attend City feedback events. We have resources that can help with affordable housing.

- Affordable housing will increase diversity
- Invest in the arts and prioritize

working with artists of color!

- Built more affordable housing
- Promote economic diversity- it all comes back to housing
- Housing affordability is necessary to have a diverse city. New housing should pass the Tesla test a.k.a. it should not likely increase the ratio of Teslas to people in the City.
- Build affordable housing. Many who run this city are out of touch with the struggles of the working class.

If you would like to share a new idea on how the City of San Luis Obispo should address Diversity, Equity, and Inclusion, please share it here

(3/6)

0 1 8

- Make this town more affordable.
- Prioritize arts and culture from diverse populations including international. Reach out to the 300 international students at Cal Poly .
- Create fun multicultural events latino fest. Asian fests etc
- Return to remote participation at Advisory and Council meetings
- The City should utilize the La Loma Adobe and use it to emphasize the diversity of our community.
- Encourage people from BIPOC and other underrepresented communities to stay in SLO after graduating from local colleges via a recruiting campaign initiated by local businesses that offer living wages to employees.
- The City owns the La Loma adobe. The thinking is that some of the grant items are related to programs or trainings and the structure could be utilized. It is near the

0 1 8

If you would like to share a new idea on how the City of San Luis Obispo should address Diversity, Equity, and Inclusion, please share it here (4/6)

trail and the school. It needs to be revitalized as it represents the French and Spanish heritage of the community. The garden is run by volunteers and could be used for different community events (ex: yoga). This is a multi cultural facility and the building needs to be stabilized. The City needs to build on the foundation that is currently there. It would be devastating if the building fell apart, it would

be loss of to the community. This could be utilized by tourists and community members. Preserving historical structures connects the present to the past.

- City Lead by Example DEI plan
- Ensure current and future city programs are gender inclusive, especially youth programming.
- Build more affordable housing.
- I encourage you to zero in on a doable set of actions that would show real progress. Building a multicultural facility

If you would like to share a new idea on how the City of San Luis Obispo should address Diversity, Equity, and Inclusion, please share it here

(5/6)

0 1 8

is expensive. But what's really needed is programming that engages people in the idea of multiculturalism. Look at what RACE Matters is trying to do. They are striving to produce programming that is relevant and engaging. Same w SLO REP, at least according to its website which has specific goals about improving representation on Stage and diversity in its programming (plays). These are highly visible things.

- This is not a concern based on the community priorities survey. Cancel this entire effort and stop wasting money.
- The connection between sustainability and DEI - Climate Justice
- Continue with the implementation of CWA's that are inclusive, equitable, diverse, and provide local jobs for

If you would like to share a new idea on how the City of San Luis Obispo should address Diversity, Equity, and Inclusion, please share it here
(6/6)

0 1 8

local residents. They ensure the use of local accredited apprenticeship programs and provide a career pathway.

Emergency Preparedness and Response

How best can the City address Emergency Response and Preparedness?

079

(1/3)

1. Enhance City hazard mitigation and risk reduction capabilities (fire, flood, earthquake).
 4.56
2. Upgrade emergency services facilities for resiliency, sustainability, and diversity, equity and inclusion.
 3.72
3. Enhance non-emergency medical care opportunities for the community.
 3.61
4. Enhance equipment, training, and response capabilities for first responders.
 3.58

How best can the City address Emergency Response and Preparedness?

(2/3)

079

5. Develop emergency communication and evacuation plan specific to at-risk and unhoused populations.
 3.47
6. Increase availability of community preparedness programs and activities.
 3.35
7. Offer multi-lingual community preparedness programs and activities.
 3.11
8. Offer private grant programs to enhance community capabilities to complete hazard mitigation and risk reduction projects.
 2.22

How best can the City address Emergency Response and Preparedness? (3/3)

079

9. Enhance the City Emergency Operations Center and Management capabilities.

Emergencies Other Ideas

020

If you would like to share a new idea on how the City of San Luis Obispo should address Emergency Preparedness and Response, please share it here

(1/4)

- Complete the Pismo Hillside project, it is a parking, and street safety issue.
 - Complete the Pismo Hillside project, it is a parking, and street safety issue.
 - Complete the Pismo Hillside project, it is a parking, and street safety issue.
 - Complete the Pismo Hillside project, it is a parking, and street safety issue.
 - Complete the Pismo Hillside project, it is
 - a parking, and street safety issue.
 - Complete the Pismo Hillside project, it is a parking, and street safety issue.
 - Incentivize businesses and residents to install security cameras to deter crime. Kelsey shared about a program in Washington DC that had success.
 - Develop and implement an emergency communication system to alert community members when there

If you would like to share a new idea on how the City of San Luis Obispo should address Emergency Preparedness and Response, please share it here

020

(2/4)

is imminent threat. Ex. Opt in reverse 911 to alert community members

- SLO City did a great job disseminating information during the recent floods.
- We need a new police station.
- Fire department needs a fire truck Transformer™
- Improve the Laguna Lake basin and deepen the Lake to reduce flood risk and provide year round water for fire fighting
- SLO does not need

\$52 Public Safety Center. Money should be used primarily on services.

- There seems to be zero police activity enforcing speed limits and traffic regulations
- Have done a good job with informing public
- Need proactive monitoring of city parks, streets, downtown.
- CERT training!
- Continue to support, and increase, mental health support with emergency response

If you would like to share a new idea on how the City of San Luis Obispo should address Emergency Preparedness and Response, please share it here

020

(3/4)

- The city (and county) need step down units to support the recurrence of individuals into our two ERs. Consider funding opportunities to bring this into our community
- More trained workers to respond to mental health or homelessness issues instead of an armed response
- Work with faith communities to partner with for preparedness workshops after gatherings
- The need for multilingual communication from the city--especially in the event of disasters--is critical to avoid loss of life. In a disaster the difference between knowing whether to shelter in place or evacuate is based on receiving a notification in the language you understand. It is a basic human right to receive this information, and it should be done in a native language.
- Please start giving tickets for speeding and not yielding to

If you would like to share a new idea on how the City of San Luis Obispo should address Emergency Preparedness and Response, please share it here

020

(4/4)

pedestrians and bikes. Ongoing issue in anholm and other neighborhoods.

- When I called 911 about a transient verbally assaulting kids, dispatch said "he has a right to be there". It took a second call for response 20 minutes later. Dispatch should not be dismissive and leave callers with the impression that dispatch is determining when a citizen needs police response.
- Major issues with

individuals running traffic stops - need to have police being proactive monitoring streets for safety.

- Have police monitoring streets and parks.

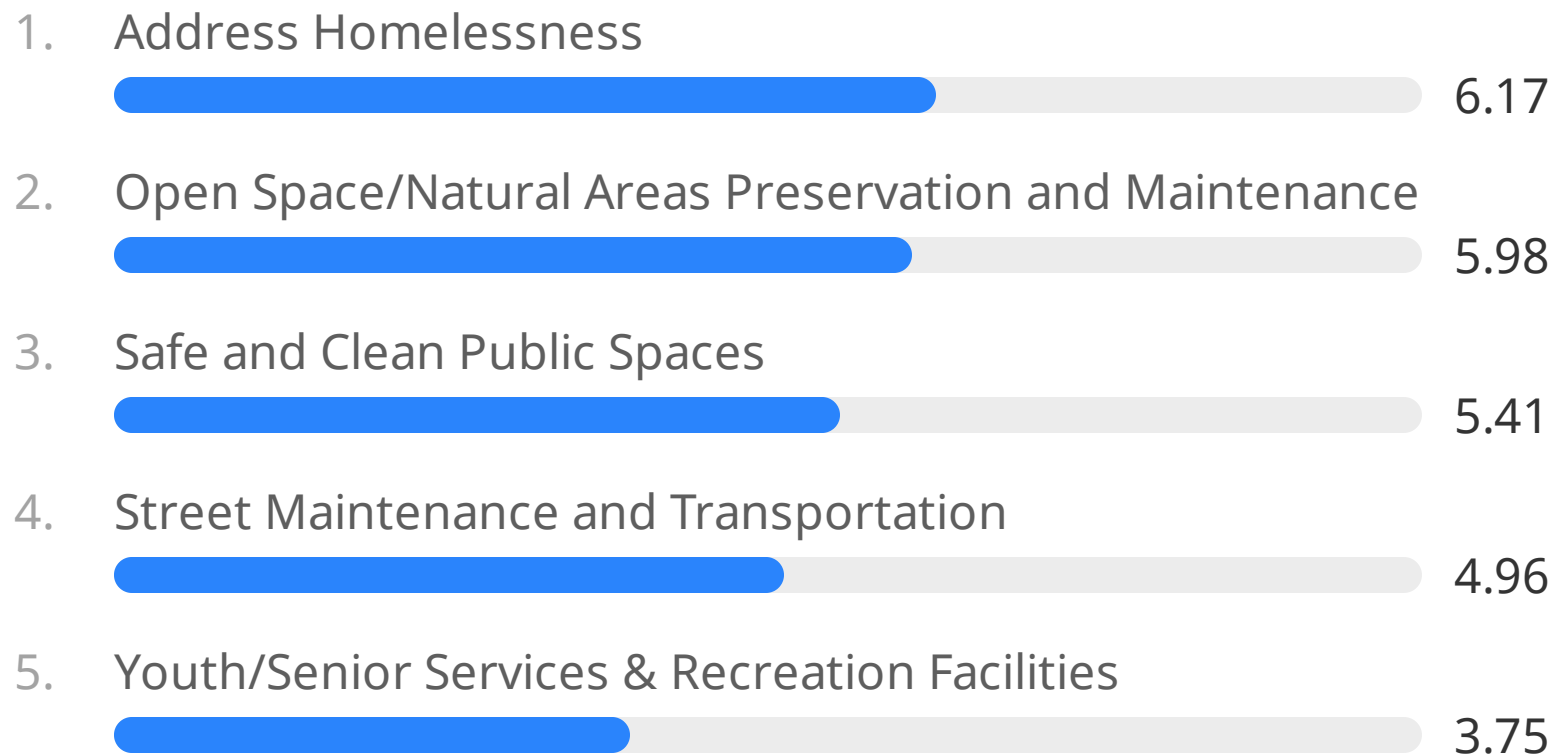

Local Revenue Measure

**The City's Local Revenue Measure (G-20)
requires funds raised through the measure to
be used in the following areas, how would you
prioritize funding?**

(1/2)

Other Ideas

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(1/18)

053

- City Farm SLO Proposal for Public Safety, Access and Purpose-Critical Infrastructure Support
- allow the public to use the new pool at San Luis High School
- the stop signs at traffic circles are a problem, (example, the one near the Salvation Army, and those bulb outs with the stamped concrete and rubber things are so ugly in the downtown south neighborhood. They are a hazard to bicyclists forcing the cyclist to squeeze closer to cars. Much like those big ceramic dots that were removed from the printed corners. Speed humps, bumps or whatever you're calling them do a much better job of slowing traffic. Put the bumps on every residential street please!
- Ken Hampian Roller Rink maintenance and repairs. SLOHOCKEY and SLOCO (Roller Derby) NPO's have a long list of needs.
- property owners downtown need to have rent control!

053

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(2/18)

- Ken Hampian Roller Rink maintenance and repairs. Daily sweeping, cleaning up spills and vomit; an attendant to keep weed smoke away during youth sports; netting behind/above the goals to protect other park users and cars; removal of maple trees to reduce debris on rink; exterior benches for hockey players to change while other games are being played; better stands for parents to watch youth sports. SLOHOCKEY and SLOCO (Roller Derby) NPO's have a long list of needs.
- Save La Loma Adobe. Recognize historical significance and preservation. With a plan of preservation, rehabilitation, and then for adaptive reuse.
- Ken Hampian hockey rink at Santa Rosa Park should be enclosed — if not, at least covered from rain / nightly dew.
- Ken Hampian Roller Rink maintenance

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(3/18)

053

and repairs. Daily sweeping, cleaning up spills and vomit; an attendant to keep weed smoke away during youth sports; netting behind/above the goals to protect other park users and cars; removal of maple trees to reduce debris on rink; exterior benches for hockey players to change while other games are being played; better stands for parents to watch youth sports. SLOHOCKEY and SLOCO (Roller Derby) NPO's have a long list of needs.

- clean up crews for creeks and graffiti
- Close down part of Monterey street and convert it into a community gathering place.
- Ensure Laguna Lake dredging project continues. A little at a time, as planned, is a very reasonable strategic approach to support flood mitigation, and support a healthy lake for the complexity of wildlife in the central coast.
- Stabilize, preserve and rehabilitate La

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(4/18)

053

Loma Adobe for future appropriate reuse that honors our diverse cultural roots.

- Amend zoning code to allow more mix of uses citywide, so a neighborhood coffee shop for example would be allowed
- Over all the city does a great job. I don't agree with some of the ideas but I can adjust to changes. Big goal would be to clean the trash out of the waterways
- Ken Hampian Roller Rink maintenance and repairs.
- Rehabilitate and make

La Loma Adobe property available to the public. The site is near open space and of historic significance.

- Ken Hampian Roller Rink maintenance and repairs.
- Use bike storage lockers for homeless. They should not have to use grocery carts to keep track of their possessions. Ally with local community charities, e.g. St Vincent de Paul, to vet access.
- When Council approved the SLO REP

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(5/18)

053

challenge grant, Councilmember Christianson observed that the money for SLO REP was a single-digit percent age of the total money the City spends in a given cycle on CIP projects. The point being that for an absolutely small amount, the City will reap huge dividends from a new SLO Rep. For that reason, keep the words "arts and culture" explicitly states within a Major City Goal so that when opportunities arise, you have the rationale to justify action.

- More events in Mission Plaza.

Several large spaces, and I rarely see the amphitheater bowl being used.

- Can the currently closed abode in Mission Plaza be used for something, like pop up retail?
- Develop strategic plan that interconnects specifics from many other initiatives that ensures SLO can attract the working age groups. E.g. affordable housing, daycare business development... Recognize the

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(6/18)

053

- synergies that exist. When certain foundational problems are addressed many solutions to other issues are easier to solve. Look horizontally across initiatives vs just vertically.
- Hockey rink needs a shade structure, better seating, closer bathroom, and maintained boards.
 - Build a championship caliber 18 hole disc golf course. Take advantage of disc golf "tourists"
 - More recreation opportunities at Laguna Lake.
 - Facilitate citizen access to forums on more Democratic legislation with objective of getting local authority for governance.
 - Make sure that your traffic efforts follow national and international regulations as well as Caltrans. Stop signs do not belong on roundabouts / traffic circles. Getting people used to stop signs at traffic circles in SLO is looking for accidents to happen here and elsewhere.
 - The hockey rink at Santa Rosa Park could

Do you have a new idea that isn't addressed at one of the other stations? Share it here

(7/18)

053

use more seating, more shade, a restroom on that side. Also, skate park users don't need to pay for lights, but we do?

- Expand child care (school age and TK) to provide access to all in need.
- Treat homeless people better. Get rid of bars on benches, car camping ban, tents in parks ordinance.
- SAN LUIS OBISPO NEEDS ANARCHY
- Continue to implement vision of Mission Plaza master plan & close

off vehicle traffice on Monterey from Chorro & Osos Street.

- This process of giving feedback is not inclusive to seniors, individuals who do not have phones, or people who are not technologically savvy.
- Continue dredging Laguna Lake
- Fix the water fountain in the Ludwig center... it's flooding the floor and everyone's faces!
- Wake up to the struggles of the working poor. The disabled. The homeless people who are part of

- your community. Learn compassion, then take action. Realize that most of us are worse off than ever before.
- Build a pedestrian bridge midway between Orcutt and the train station to facilitate residents getting to Sinsheimer park and the YMCA, etc.
 - No button, automatic pedestrian ok to cross signals at all intersections in the downtown area. More street lighting for safety purposes.
 - Bring back the trolley, add more trolleys, have an effective ad campaign to promote transportation like have promotional, free days! It's mond of the month all public transportation is free for all SLO residents.
 - Develop a downtown visual resources inventory and assessment. Develop a downtown creek walk master plan.
 - identify what we can do to help the homeless people get on their feet,

- find job and back in home rather than getting in a temporary housing
- Please allocate funding for the preservation and adaptive reuse of La Loma Adobe
- Make it possible to walk through Cheng Park. Nobody ever enjoys it because the parklet path is inexplicably not connected to the sidewalk.
- More free parking downtown or at least 1-2 hrs of free parking at a meter soace
- Consider of reducing the speed on most city streets to 25 mph. Many cities have adopted this limit successfully and benefit from the reduced speeds.
- Save la loma adobe. It embodies our cultural roots, can serve as an educational facility by informing people about our diverse early history and be a souce of inclusion of today's racially or ethnically marginalized population
- I would like to see funding reallocation for part of the 52

million dollars currently in the works to build a new police station. While I'm sure the building needs updates or that there is need for a new building, this large increase from the initial 20 million proposed is concerning to me at a time when we are needing to make possible budgetary trade-offs. I urge you to find ways to

decrease the amount spent on the new police station and reallocate the difference towards homelessness, housing, and DEI funding.

- There should be more bike lockers available and codes provided to those who register their bikes or pay for a day use code. I'd rather pay \$1-\$2 to park my bike securely than drive my car.
- Arts and culture!
- Figure out how to build the new police station cheaper

- The single roller hockey rink at Santa Rosa Park is really nice to have, but by itself is insufficient, and doesn't get enough maintenance attention from the City. Maybe the vacant space (7 years vacant?) across the street from Eureka (Copeland's building?) could be converted to a skate rink that could also be used for Futsal (indoor soccer), volleyball, and other events!
- Please dispense of the filthy parklets
- Cal Poly should not allow students to bring cars for the first two years of attendance with exceptions for extreme need circumstances.
- The benefits of a well managed and funded Urban Forest for economic value and assisting in meeting climate action goals are well known. The City of SLO has reduced the size and effectiveness of their Urban Forestry staff the last several

(12/18)

053

years. It is recommended that the City increase its Urban Forestry staff and programs to meet Federal, State and industry standards. This will increase the City's ability to meet Greenhouse Gas goals and maintain/increase the value of our buildings and infrastructure.

- Allow pedal assist mountain bikes on area trails.
- Let's try to stay on topic for public meetings; no need for moments of silence for events out of the

local area not part of the meeting (especially no need for people to nod their heads). Let's stop wasting time with Nazi-Germany style brainwashing tactics and pressuring people to recite a pledge of allegiance to start meetings. This is a waste of time and off topic; not to mention all of the other problems associated with it.

- Improve the structural condition, historic integrity, and appropriate cultural interpretation of the four City-owned adobes in light of

- the City's Diversity, Equity and Inclusion goals. In particular, support efforts to stabilize, restore the La Loma Adobe
- Turn laguna lake back in to a natural wetland area
- Santa Rosa skate rink needs repair. The boards are rotting out from the weather. Can you please maintain and repair. Also, please budget in a permanent roof/cover for the rink.
- More dog parks
- Continuing support for arts and culture in our community
- Continue emphasis on cultural arts district improvement
- Local Revenue was promised for Laguna Lake maintenance and restoration, it needs to be continued
- Preserve the City's historic adobes
- Diversity goals The City needs to review the recruitment of firefighting staff to strive to include female firefighters in the City of San Luis Obispo. While many large and

- small fire departments have female incumbents from Firefighter to Fire Chief , the City of SLO has suffered from the institutional inability to recruit and hire female firefighters.
- Santa Rosa park improvements.
 - Cultural arts district
 - Do not use \$50 million - \$100 million entirely on Police department updates. Allocate Measure-G for other City infrastructure, such as parks, temporary housing, roads, bridges
 - Build a county pool in the space behind target
 - Please fix and maintain the roller/hockey rink at Santa Rosa park. A skater could get hurt. No one should have to skate through human vomit.
 - Need a skatepark ambassador that does the job effectively.
 - Continue efforts to stabilize and restore the La Lima adobe and surrounding grounds.
 - Laguna lake park improvement
 - As the city takes advantage of new

- opportunities to increase open space acquisition for parcels that are not within the city limits, encourage the acquisition but not incorporation into the City. The city can control the parcel but not incur costs of Fire Protection and other responsibilities . Keep Wildland fire protection cost a State responsibility.
- Clean up parks so they are safe. More money needs to put in safety (drugs use etc.) - for example unsafe for kids to be at skate park without an adult.
 - Prioritize La Loma Adobe
 - I think support for the arts and related cultural activities is critical for establishing and maintaining a vibrant and diverse community
 - Prioritize La Loma Adobe.
 - Stabilize La Loma adobe
 - Keep aftercare programs in schools.
 - Don't spend 52 million on new police building. The number 1 issue for SLO folks is homelessness. Money is needed for mental health and other services

(16/18)

053

- Support local small nonprofit performing arts groups. Not the ones that always get massive grants.
- The youth mental health epidemic
- Increase support for parks and recreation.
- Encourage community members to use grey water systems
- Develop a pump track.
- Local Performing Arts Groups especially DANCE
- Arts & Culture
- Save La Loma
- Adobe Historical House
- Disappointed that Sustainability efforts are not included. Curious that this is not mentioned at all.
- Family oriented programs such as more access to child care, after school programs, family swim center.
- Monitor parka for homeless issues and make it safe for kids to play. Kids can't go along.
- Please fix the Pismo hillside between Morro and chorro
- Save La Loma Adobe.
- Level of school education

- Arts and Culture
- Arts and culture! I would love to see more opportunities for investment in arts and culture- both permanent and ephemeral in SLO
- Roundabouts good.
- Pump track for kids.
- Work on biking infrastructure.
- Rink for hockey needs repair and fixed. Unsafe for using.
- 1. Funds for the Restoration of the Adobe on Lizzie. 2. Funds for the arts.
- Polystyrene Ordinance, Plastics single use, zero waste
- Need more police presence at skatepark in evening. Frequent drinking, drug use fireworks, etc.
- Participatory Budgeting project-work with Participatory Budget project to implement in the City of SLO. Bring participatory budgeting to the City of SLO
- Skateboard park needs to be monitored for alcohol and drug use - so safe for kids to use.
- Hockey facility needs daily maintenance.

Skatepark gets good attention but rink has trash vomit feces etc that goes uncleaned.

rink. Boards and plastic need to be replaced.

- Hockey rink/roller rink needs it be fixed. Safety is a major concern.
- Pump track needed. Kids love it. Great exercise.
- Would love to see a pump track. Consider removing unused horseshoe pits for space.
- Rink maintenance and repair - checking for repairs and new wood, checking for trash/ vomit
- Need to budget adequately for maintenance of the hockey
